Todayâ??s AFI Movie Club Selection

Description

Posted by Larry Gleeson

Todayâ??s AFI Movie Club selection received a Best Picture Academy-award-winning Oscar and is based on the play *In Moonlight Black Boys Look Blue* by Tarell Alvin McCraney.

From writer/director Barry Jenkins, MOONLIGHT was also honored in 2016 with an AFI AWARD, recognizing it as one of the yearâ??s most outstanding achievements in the art of the moving image â?? with the official rationale stating that, â??MOONLIGHT illuminates the peerless power of cinema to inspire empathy for others and embrace a greater understanding of ourselves. Barry Jenkinsâ?? poetic tour de force presents a deeply emotional triptych â?? the journey of boy to man searching for connection amidst the labyrinth of societal boundaries. An extraordinary ensemble lights the way in this sublime realization of a world where the question â??Who is you?â?? echoes in the pain of dreams deferred and the strength of an inner truth.â?•

Available to watch on Kanopy, Hoopla, Fubu Tv, and Showtime. Highly recommended viewing!

Until next time, Iâ??ll see you at the movies!
