

Brave New Jersey

Description

Posted by [Larry Gleeson](#)

BRAVE NEW JERSEY is a comedy about a small, New Jersey town on the night of Orson Welles's legendary, 1938 *War of the Worlds* radio broadcast – the hoax that terrified millions into believing Martians were invading America. As the citizens of Lullaby, NJ face what they think is their last night on Earth, their lives will change forever. An alien invasion movie where the aliens never show up.
