

TCM's Summer Under the Stars Returns This August

Description

Posted by Larry Gleeson

TCM's ultimate movie star showcase, **Summer Under the Stars**, returns this August paying tribute to 31 stars over 31 days, including 8 star newcomers to the franchise.

Check out this year's trailer. Then, read on.

After partaking in this year's TCM 31 Days of Oscar, the juices are flowing for the **TCM 2025 Summer Under The Stars** as I anticipate more films helping to define our culture. And, in my opinion, what makes TCM stand out are the nuanced film star introductions. The stars, the definitive hallmark of classic film, propelled the U.S. film industry into a global force ([Warner Bros. Global Entertainment](#)) via the studio system.

Personally, TCM film programs provide insight into the emergence and subsequent changes to filmmaking, and the mirroring effect as films helps define culture while culture is reflected in film in the same vein as a snapshot photograph captures a moment in time. While film is a business it is also an art form paying homage to fashion, personalities, social commentary and ultimately, a driver of conversation and debate. So, I encourage moviegoers, film lovers, and cinephiles of all ages to tune in and partake in the **2025 TCM Summer Under the Stars**. Youâ??ll be glad you did! Check out the schedule belowâ?|
